

TA CATTLE

ANNUAL BULL & FEMALE SALE / THURSDAY, APRIL 4, 2019

1:30 PM CST / WEST POINT LIVESTOCK / WEST POINT, NEBRASKA

RED ANGUS - BLACK ANGUS - SIMANGUS

welcome

Welcome and thank you for your interest in our program. We would like to start out by thanking everyone for coming or viewing our cattle online. The love of what we do drives us to bring our customers functional cattle that are maternally oriented while excelling in growth and carcass. Without you this sale wouldn't be possible. We are humbled to see all the repeat customers and thankful for the opportunity.

We are confident in our genetics and know how they perform in the feedlot. TA Cattle would like to have the option of custom feeding your calves or buying them. Seeing these cattle mature, assists in improving our genetics year after year. Our cattle are the real world kind, that can gain weight in normal range conditions and perform in the feedlot.

This year's winter has been unforgiving. We feel that strong genetics are beneficial to your bottom line. Vigorous calves and docile females are a necessity with the frigid temps and adverse conditions we've had this year. Since this winter has been relentless, we have had to handle calves more than normal. These experiences have shown us which sire groups have the most calf vigor and maternal traits. With the increased expenses we have as cattlemen, bulls with these characteristics are a smart investment. If you have any questions regarding which sire groups would benefit you, feel free to call us and we will gladly talk cattle with you.

Thanks again to all our customers, future customers, and everyone that helped make this sale possible. We hope to see you on sale day.

Thank you TA CATTLE

TA CATTLE

ANNUAL BULL & FEMALE SALE

THURSDAY, APRIL 4, 2019 - 1:30 PM
WEST POINT LIVESTOCK / WEST POINT, NEBRASKA

RETAINED INTEREST

We are retaining 1/2 interest in all bulls in the sale. We are selling the remaining 1/2 interest, full possession, and full salvage value on these bulls. This option gives TA Cattle the option to collect, use, and market semen from the bull and does not restrict the purchaser from doing the same. This collection, unless agreed otherwise, would be done at the expense of TA Cattle, at the buyer's convenience. Also at the time of purchase, the highest bidder on a retained interest bull may elect to purchase exclusive semen rights for 100% of the purchase price in addition to the purchased price on retained bulls. If a buyer elects to purchase exclusive semen rights, TA Cattle interest then becomes in herd use only, but TA Cattle retains all rights to use the bull within their herd.

FIRST BREEDING SEASON GUARANTEE

All bulls selling for \$3000 or more are guaranteed for the first breeding season. A breeding season is defined as the 90 day period following the first turnout of the bull. If a replacement bull is available, he will be provided or if the buyer prefers, credit toward one bull will be given in the following sale, less salvage value of the injured bull. All injured bulls must be diagnosed by a veterinarian. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage.

VACCINATION RECORD

All cattle have been vaccinated, starting at 30 days of age, at grass turn out, and again at pre-weaning and post-weaning. They were poured and dewormed. Vaccinations include 7-way clostridial, IBR, BVD, P13, BRSV, haemophilus somnus, and pasturellas. Any positive test results will be noted with EPDs throughout the catalog. The open heifers have also been Bangs vaccinated. The bulls and heifers have had their pre-breeding shot-Express FP 5-VL5. If you would like specific details on products used please give us a call. The bulls will be sold as guaranteed breeders according to the sale terms and conditions of the RAAA. Load out can be done anytime during the sale after settlement.

DELIVERY

Free delivery up to 300 miles. Any bulls remaining will be hauled back to TA Cattle's feedlot and boarded free of charge until April 21. After that there will be a \$3.50/hd/day feed charge until they are picked up or delivered. If you would like TA Cattle to feed and breed the open heifers, let us know right after the sale so arrangements can be made. If you do not need our services, then heifers must be picked up sale day or the couple days following at West Point Livestock.

CALVING EASE STAR RATING

- ★★★★ Sure shot calving ease
- ★★★ All cows and most heifers
- ★★ Calve easy on cows
- ★ Recommended for cows

RED ANGUS ASSOCIATION

GUIDE TO EPD'S

HB HerdBuilder Index - Need bulls for developing a profitable cowherd and maximizing the value of marketed progeny? Select a bull with a high HB value.

GM GridMaster Index - If you market all of your calf crop and want to increase the value of that calf crop, select a bull with a high GM value to maximize your profit.

CED Calving Ease Direct - Breeding Heifers? Select bulls with a high CED to increase the probability that the heifers will calve unassisted.

BW..... Birth Weight - Predicts differences in birth weight. BW is included in the CED EPD, so simplify your decisions by selecting bulls based on CED instead of BW.

WW Weaning Weight and YWYearling Weight - Predicts differences in weight at weaning and yearling. While selection based on these growth measures can increase your payweight, be cautious what the bull's other EPDs are.

Milk Milk - Predicts differences in weaning weight of daughter's progeny due to milk production.

ME Maintenance Energy - Selecting bulls with a lower ME EPD will decrease the amount of feed his daughters will require to maintain body weight.

HPG..... Heifer Pregnancy - Retaining heifers? Select bulls with a high HPG to increase the percentage of exposures that result in a calving observation.

CEM Calving Ease Maternal - Another number to pay attention to if you are retaining heifers. Selecting bulls with a high CEM will increase the probability of those daughters calving unassisted.

STAY.... Stayability - The most important trait if your goal is developing cows that stay productive, thus increasing your profitability. Bulls that have a high Stay EPD are expected to sire daughters that remain productive in the herd until at least 6 years of age.

MARB .. Marbling Score - Select bulls with high MARB EPD to increase the number of progeny that grade Choice or Prime.

YG Yield Grade - Marketing calves on a grid? Placing selection pressure on YG EPD will decrease the number of YG discounts on gridmarketed progeny.

CW..... Carcass Weight - Selecting bulls with a high CW EPD will increase the weight of the hanging carcass, which directly impacts revenue.

REA Rib Eye Area - Need to add muscle? Select bulls with a high REA EPD to increase rib eye area, which favorably increases Yield Grade.

FAT Backfat - Need to reduce waste in carcasses? Select bulls with a low FAT EPD to reduce backfat, which favorably increases Yield Grade.

TOP DOLLAR ANGUS FEEDER PROGRAM

Top Dollar Angus is a genetic certification and marketing company focused exclusively on the top 25% of the industry in carcass and growth Angus and Red Angus influenced feeder cattle. Top Dollar Angus is a program similar to other popular branded beef programs, except that Top Dollar Angus does its "branding in the feeder cattle and calf market.

Qualified hers must have two or more generation of Angus (Black or Red) genetics with growth and carcass traits objectively ranking in the top 25% of the breed based on documents historical sire use. DNA evaluation, conducted by Zoetis or Geneseek, is another workable method to qualify. Once your cattle have met the necessary requirements, they will be marketed under the Top Dollar Angus brand and logo and will be promoted aggressively to a large number of feed yards and buyers. In today's market, Top Dollar Angus cattle are seeing premiums ranging from \$30 to \$70 per head above the average market.

Why the premium? Cattle feeders know that Top Dollar Angus cattle perform better and have higher grid-based carcass rewards compared to other cattle. This puts more dollars per head into the cattle feeder's pocket, which can be passed back to the producer in the form of premiums paid above market price.

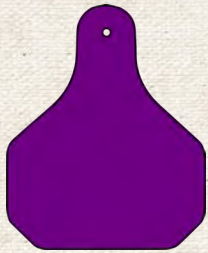

Top Dollar Angus helps take the guess work and surprises out of growing and feeding cattle. Feed yards are tired of unpredictable performance and wide ranging profitability results from group to group on cattle they purchase. Cattle often look the same and have the same colored hides, but are very different genetically. That's why the genetic certification of high-end Angus and Red Angus feeder cattle is here! The industry must differentiate the best Angus and Red Angus genetics from average cattle, and that's what Top Dollar Angus will do for you!

If you have consistently invested in high-performance Angus or Red Angus genetics, Top Dollar Angus will make your cattle stand out from the pack and get you the premiums you deserve. No matter how you market your cattle, our goal is to create more demand and higher prices for your cattle.

COMMERCIAL HEIFERS

Moderate group of heifers, that are going to make fantastic momma cows. I don't think a guy could go wrong with any of these sire groups. Bulls they are sired by are all proven herd sires that are siring great mothering ability, udder suspension, and teat size. These are the kind that will stay in the herd for years and pay for themselves quickly.

FIVE FULL BROTHERS

Sell as lots 5-9

What a way to start off the yearling division. These full brothers are dual purpose and very easy keepers. They have strong carcass and excelled in their early growth. Birth to weaning ratios like these are hard to come by. What they have us most excited about is the females they will produce. 501W is a heavy milking 84S daughter that made her way to our donor pen by being a very easy keeper and a versatile breeding piece. No matter the operation, these bulls will impress you on sale day!

SECURITY SIRE GROUP

Sell as lots 13-15

Security was the high selling bull in our 2017 Sale going to 5L Red Angus in Montana. Very easy keeping cattle that are moderate in frame with a more moderate birth weight than Blockade. True heifer bulls that are dual purpose with great calf vigor. While up at stud up in Montana, we were very impressed how he held up on cows in the high-altitude.

BOURNE SIRE GROUP

Sell as lots 22-24

Bourne was the most eye appealing bull we have seen at stud. Very capacious, deep flanked, and carries his muscle into his lower quarter. Dual purpose sire that puts it all together, coming from one of the best cow families in the breed.

FIVE FULL BROTHERS

Sell as lots 25-29

The ranchers dream. These Blockade's have great calf vigor at birth and excel in early growth. Blockade has thrown some of our most eye appealing cattle for the last three years. He is now deceased with a limited amount of semen collected. Mates well with high milk females and sires good udder suspension and teat size. Moderate in frame, as well as very easy keeping.

THREE FULL BROTHERS

Sell as lots 30-32

These three brothers are out of Abigrace C143 that has a near perfect udder with phenomenal carcass traits. Not many direct Abigrace daughters out there, then adding Blockade to the picture makes this mating very intriguing and rare.

TWO FULL BROTHERS
Sell as lots 37-38

A191 is still our #1 calf vigor sire. Hard to get a bull that throws this much calf vigor with an easy to work with mentality. Balancing calf vigor and docility is a fine line. He does both while coming from one our best uddered cows in the herd. Makes great females with near perfect udders and great maternal instincts.

BOUNDARY SIRE GROUP

Sell as lots 40-42

Boundary was one of our picks to sample out of our 2017 sale. Bred three females to him and got three bull calves, all being on the sale. Full of red meat and marbling. Carcass bulls that will not disappoint.

SHOOTER SIRE GROUP

Sell as lots 56-58

Really high on the 0545 bull. Very maternal pedigree that goes back to a King Rob cow that is one of the oldest in the herd. A half brother to Shooter sells as lot 45.

LOT 65

COMMAND SIRE GROUP

Sell as lots 62-63 and 65-66

Command sires moderate Angus cattle that are easy feeding with strong maternal traits. Of the three Baldrige Angus bulls that we used, Command was the most consistent Angus bull on a performance and phenotypical standpoint. Easy to work with and should make great cows.

EO D336 SIRE GROUP

Sell as lot 73

EO was our pick of the 2017 Gonsojr Simmental Sale. He is an impressive herd bull that is very loose structured on a solid foot. Look for him to be used heavily next year. Sired a nice set of keeper heifers to be bred in 2019.

SANTA FE SIRE GROUP

Sell as lots 74-78

In search of a Simmental bull that covers all the bases? Santa Fe is your guy, he is very consistent. He will throw a little more birth weight than we would like, but he sure makes up for it in performance and eye appeal.
